

CSIAG – Change in System Inertia Advisory Group StS – Studies Subcommittee

Webinar

1:00 p.m.—3:00 p.m., Thursday, September 16, 2021

The Change in System Inertia Advisory Group (CSIAG) is part of the 2021 Study Program and builds on the work of the System Inertia Task Force from the 2019 Study Program.

At this meeting, the CSIAG will be reporting out on their assessment and will open the approval process for the Studies Subcommittee (StS). The StS will be asked to send any feedback on the report to Doug Tucker at dtucker@wecc.org before Thursday, September 23, 2021.

The CSIAG and the StS will meet one final time on Thursday, September 30, to address how the collected feedback was incorporated into the report and will seek official approval from the StS.
