Change Summary

Add branch type field to Table 3 of the DPM.

Schedule

Incorporate language into DPM for inclusion in 2022 DPM

Detailed Description

WECC staff is performing a data check on the branch type field. This field is not included in the DPM. Adding the branch type field to the DPM will help Data Submitters populate this informational field.

Benefits

Provides information to Data Submitters on a field being checked by WECC Staff which should help eliminate data errors.

Cost

None, existing informational field.

Alternatives

None

Proposed Edits

The following modifications to the presenting approved DPM are proposed to implement the change being requested. Existing language is identified in blue and change language in red:

Table 3: Data Requirements (AC Transmission)

Field	Description	Requirements
Type	Branch Type • 0	X4. Branch type 1 shall not be used (see "Data Requirements (AC Transmission Lines" item 7)
