

APFWG – Anchor Power Flow Work Group

Virtual

1:30 p.m.—3:00 p.m. Mountain Time, Thursday, January 20, 2022

The APFWG creates and documents assumptions for the Anchor Data Set (ADS) Reference Power Flow case to use in building the ADS production cost model (PCM).

This week the APFWG will discuss progress made on mapping resources and revisit the dynamics modeling threshold discussed at previous meetings.
