

LDESAG – Long-Duration Energy Storage Study Advisory Group

Virtual

1:00 —3:00 p.m. Mountain Time, Wednesday, May 11, 2022

The Long Duration Energy Storage Advisory Group (LDESAG) met on April 27, 2022 to review comments on the draft scope document that was presented during the kick-off meeting on April 13, 2022. Many of the meeting participants expressed concerns about attempting to study too many clean energy technologies in the upcoming study assessment. WECC agreed to develop a revised draft scope to address these concerns and distribute it to the LDESAG for discussion at a meeting on May 11, 2022.
