

Data Preparation Manual Change Request System Review Subcommittee (SRS)

The following is an example change request to be used as a template for actual requests. Please complete the template with as much detail as possible. You may contact the SRS chair, vice chair, and the compliance coordinator for assistance.

An SRS member should submit the completed request by posting the document on the [SRS team site](#).

Change Summary

Add Balancing Authority to Table 6 Data Requirements (Fixed Shunts).

Schedule

Incorporate language into DPM: Inclusion in 2024 DPM.

Adherence to revised DPM language: Same as 2024 DPM.

Detailed Description

Balancing Authority is a field for a fixed shunt but is missing from Table 6.

Benefits

The following benefits are intended by completing the proposed DPM change request:

- Adds missing required field for fixed-shunt reactive elements.

Cost

- None, data is already in base cases.

Alternatives

No alternatives.

Proposed Edits

Add Balancing Authority to Table 6.

Field	Description	Requirement
Balancing Authority	Balancing Authority Area in which shunt is located	

Example
