

WREGIS Terms of Use— Special Addendum for API Usage

April 2023

Customers desiring to use the available WREGIS APIs must have a signed “WREGIS Terms of Use” on file with WECC. The Customer also acknowledges and agrees to the following additional terms of use related to the use of available WREGIS APIs (“API Usage Addendum”):

1. API keys are for Customer (the organization listed as the owner of the applicable WREGIS account) use only and must not be transferred or given to any other entity without the express, prior written permission of WECC, which WECC may withhold for any reason at its sole discretion;
2. Customer must provide immediate notice to WECC if a breach occurs that could affect data provided to WREGIS or systems connected to WREGIS via the API and must take all reasonable precautions to protect the WREGIS system, including disconnecting its systems from the WREGIS API, upon learning of such a breach;
3. Customer is responsible for all development work necessary for their system(s) to connect to the WREGIS API. WECC will not be responsible for any costs or efforts associated with such connection;
4. Customer will treat all access credentials to the API as confidential and will not share those credentials with any other person or entity;
5. Customer will not attempt to gain unauthorized access to services, networks, or computer systems connected to the API;
6. Customer will not attempt to interfere with or disrupt the integrity or performance of the services, networks, or computer systems connected to the API;
7. Customer will not send, upload to, or store in the API any virus, worm, time bomb, trojan horse, or any other harmful or malicious code, file, script, agent, or program;
8. Customer will indemnify, defend, and hold harmless WECC, its employees, officers, and directors for any Customer breach or attempted breach of these terms of use.
9. WECC may impose reasonable performance, security, and access restrictions on WREGIS API usage at the sole discretion of WECC.

WREGIS Terms of Use—Special Addendum for API Usage

Violation of the above API Usage Addendum will be considered a default and may result in immediate loss of Customer API privileges and possible loss of Customer WREGIS organization privileges as described in the WREGIS Terms of Use.
