ESOTF Update

November 19, 2020

Ken Silver

ESOTF update

- ESOTF is currently meeting the first Monday of the month
 - Meeting schedule and frequency may vary based on work progress
- BA Energy Storage Survey completed
 - The hoped for insight into storage user experience and future performance goals was limited
- Survey Next Steps
 - Additional outreach to TOPs and RCs
 - Survey preferred telemetry and SCADA configurations
- ESOTF Current Work
 - Reviewing storage database
 - Presentation on emerging technologies for longer term storage
 - Discussion of storage as a transmission asset
 - Correlate existing NERC/WECC requirements
- Monitoring work of the NERC IRPWG as it relates to Energy Storage
