

RASRS update to the Reliability Risk Committee

June 28-29, 2002

Gene Henneberg, Chair and
Milt Patzkowski, Vice Chair

Remedial Action Scheme Reliability Review Subcommittee (RASRS)

- Subcommittee Purpose
 - RASRS aids the Reliability Coordinators (RC) review for the reliability aspects of existing, modified, planned, or proposed-for-retirement remedial action schemes (RAS) under NERC Standard PRC-012-2. The RASRS also provides a uniform review process to enhance grid performance in the Western Interconnection.
 - Items for Approval and Discussion: None

Recent and Upcoming Activities

- March 15-16 RAS reviews
- 9 entities
- 17 schemes for approval
- 1 information item
- Next scheduled RASRS meeting July 19-20,2022 + web
- Scheme reviews in closed session
- RAS Design Guide updates
- RASRS Charter updates

Three-Year Work Plan Status

Title	Reliability Risk Priority	Status	Target Date
Share operating and system data insights from Events Analysis, including near-misses	1: Resource Adequacy and Performance 2: Changing Resource Mix 4: Extreme Natural Events RASRS members participate in the monthly EPAS meetings that review significant events.		On going
Review reliability implications of RAS in conjunction with the relevant RCs	1: Resource Adequacy and Performance 2: Changing Resource Mix Tri-annual reliability reviews of new, modified, and RAS proposed for retirement		On going
