

## Introduction

WREGIS users may use an upload file to initiate certificate transfers rather than the standard User Interface (UI). This function was built to handle large volumes of transfer activity, both external and internal. It cannot be used to initiate export, retirement, or reserve transactions.

<Public>

All external transfers initiated via file upload will still require the receiving organization to accept the certificates. Instructions for accepting a certificate transfer or using the UI to initiate certificate transfers can be found <u>here</u>.

## **Data File Specifications**

The Mass Certificate Transfer file must be in .CSV format and has a line limit of 1,000 per file. If one line fails a system validation, the entire file will be rejected. A file header is required, with all five fields listed.

You must leave one field blank depending on whether the transfer is internal or external. Read carefully to ensure that you have the right fields for the transfer type you are initiating. An example file will be made available upon request.

Field	Definition	Comments			
serial_number	The serial number of the batch of RECs	Example: 99999-AA-123456-1-100			
	you are transferring (all or part).	(RECs issued prior to November			
		2022 may have a different format.)			
quantity	The total number of RECs you are				
	transferring from the batch.				
to_organization*	The Organization ID to which you are	Organization IDs start with an 'A'			
	transferring the RECs. Required for	and are followed by a one to four			
	external transfers, leave blank for internal	digit number.			
	transfers.	Examples: A1 or A9999			
to_account*	The Active Account ID to which you	You can only transfer RECs to <u>Active</u>			
	are transferring the RECs. <i>Required for</i>	Accounts using the MCT function.			
	internal transfers, leave blank for external	Example: 1234ABCD-55ZZ			
	transfers.				
notes	An optional field for transaction notes	Character Limit: 50			
	that will be visible to both the sender				
	and the recipient.				

\* Either the to\_organization or the to\_account field is required, with the unused field left blank. Submitting a line with both values will cause a system error.

## 155 North 400 West | Suite 200 | Salt Lake City, Utah 84103 www.wecc.org

## Process

1. Navigate to the **Active** tab in **Certificates** and click **Upload** in the top-right of the screen.

×	WECC	Demo Org 1 🔹	¥						
🕀 Dasht	ooard	Certificat	es Activ	e Retired	Reserved				
O Certif	ïcates	0 RECs			Upload	Trans	sfer Retire		Reserve
	actions	Account	• I	Account ID 1	WRECIS		Concreter 1		Fuel Ture
পল্ল Acco	unts	Filter	т + •	Filter	Filter	<ul><li>↓ di bi</li><li>↓</li></ul>	Filter	~	Filter

2. Choose the file you wish to use and click **Upload**.

<b>UPLOAD FILE TYPE *</b> Mass Certificate Transfers				
SELECT FILE FOR UPLOAD Choose File DemoMCT.csv				
Cancel				

3. If the file is in the correct format, you will see a success message, and the system will send you an email. If there are issues with processing any of the individual transaction lines, the system email will list the incorrect lines and reasons; the full file will be rejected and will need to be corrected before reloading.

Dear Alice Regional,

A recent mass certificate transfer upload has failed a validation check. Details for this upload are as follows.
