

Human Performance Forum Scope

Establishment

The Human Performance Forum (HPF) was established by the Operations Training Subcommittee (OTS). The HPF now exists under the Reliability Risk Committee (RRC).

Purpose

The purpose of the HPF is to discuss common vocabularies, tools, techniques, and training materials to assist Bulk Power System (BPS) operations and field personnel in the promotion and sustainability of human performance practices.

The HPF will focus on information sharing by:

1. Discussing industry practices regarding human performance.
2. Sharing information about emerging issues found in human performance.
3. Discussing information about operational experiences and lessons learned from industry events and the metrics used to measure human performance.

Committee Composition and Governance

Membership, leadership, and meetings will be governed by the Forum Governance Guideline.

The HPF has been approved by the Board to hold closed sessions. Closed sessions must be held according to the procedures and requirements in the Board Policy on Closed and Western Interconnection Data Sharing Agreement (WIDSA) Sessions. The HPF closed sessions are approved to discuss confidential entity performance from reportable events.

Reporting

The HPF will periodically report to the RRC on its activities.

Review and Changes to the Scope

The HPF will review this scope every three years or as needed and discuss any changes with the Joint Guidance Committee (JGC). The HPF will then make a recommendation to the RRC for approval.

	Committee	Date
Approved	RRC	May 26, 2023
Endorsed	JGC	August 4, 2023

Reviewed	HPF	January 24, 2023
