

Dear Valued Stakeholder,

Over the last 18 months, WECC has transitioned Compliance Monitoring and Enforcement Program (CMEP) activities to Align and the Secure Evidence Locker (SEL). These tools modernize and harmonize support for the CMEP across the ERO Enterprise. They also replace legacy tools, including webCDMS.

With this transition, we are retiring registered entity access to webCDMS in the United States effective **December 1, 2022**. We will use Align for all ongoing and future CMEP activities in this jurisdiction. Our activities in Canada and Mexico are not affected.

If you haven't already, we encourage you to review any data and evidence stored for your entity within webCDMS and download any files needed before retirement. A [how-to guide](#) is available on our [Align page](#).

After December 1, we will continue to manage records remaining in webCDMS in accordance with our retention policy and the NERC Rules of Procedure.

Please contact align@wecc.org if you have questions.

Sincerely,

Kim Israelsson
Director, Oversight Planning & Analysis
