GridSecCon Early Bird
Registration Open

GRIDSEC CON 2025

NERC • E-ISAC • WECC

OCTOBER 7 – 10, 2025

MGM GRAND • LAS VEGAS

WASHINGTON D.C. – Hosted by NERC, the E-ISAC, and WECC, the 14th annual grid security conference, GridSecCon 2025, will take place October 7-10 at the MGM Grand in Las Vegas. Join industry and government peers for four days of collaboration, networking, and expert training sessions. Hear from industry and government cyber and physical security leaders about the threat landscape, effective threat mitigation programs, best practices, and more. Register by 11:59 p.m. on July 14 for Early Bird pricing.

Conference registration, accommodation booking and useful event information is available [HERE](#).

GridSecCon is the premier grid security conference focused on:

- Promoting reliability of the bulk power system through training and education.
- Delivering cutting-edge discussions on critical infrastructure security threats, vulnerabilities, and lessons learned from senior industry and government leaders.
- Informing industry about security best practices for reliability concerns, risk mitigation, and cyber and physical security threat awareness.

More details coming soon.

We look forward to seeing you at GridSecCon 2025.
