July 22, 2025 | 1:00–3:00 p.m. (Eastern)
Dial-in: 1-415-655-0002 (US Toll); 1-416-915-8942 (Canada Toll)
Meeting Number/Access Code: 2304 101 4575 | Password: 93823629

Webinar Overview
Join NERC Project 2022-02 Uniform Modeling Framework for IBR (MOD-032) and Project 2021-01 System Model Validation with IBRs (MOD-033) drafting teams as they host a joint webinar. Both teams will provide industry with a high-level overview of modifications made to their respective standards based on comments received during draft 1. In addition, the teams will cover the connections between MOD-032 and MOD-033 Reliability Standards. A Q&A will be held at the end of the webinar. The goal of this webinar will be seeking industry input on the draft standards prior to going out for an additional comment and ballot period.
