### WECC Office

*Salt Lake Hardware Building  
155 North 400 West, Suite 200,  
Salt Lake City, Utah 84103*

### Registration Includes

- *Welcome lunch on Tuesday*
- *Breakfast on Wednesday*
- *Afternoon snack break*
- *Opportunity to join a “dine-around” led by WECC staff*
- *Course materials*

### Learning Opportunities

This in-person course is hosted in two, unique, half-day sessions offering a comprehensive explanation of how the electric power system works, how it is managed, and why. We will review the technology, operation, and markets of a modern reliable power grid. We will also discuss environmental issues and regulations that affect the electric power system.

### Class Topics

- Fundamentals of Electricity and the Interconnected System
- Generation, Transmission, and Equipment

- System Operations
- Regulations
- Policy, Environment, & Current Events

#### Who Should Attend?

- Anyone new to the electric utility business
- Environmentalists
- Policymakers
- Legal personnel
- Managers/supervisors/executives
- Anyone who is looking for a broader understanding of the grid

#### **WECC Visitor Information:**

**Visitor Information** includes information on hotels, light rail, and dining.
