

Situational Awareness and Security Monitoring Subcommittee (SASMS)

Parent	RRC
Liaison	Steve Ashbaker
Description	The SASMS ensures that tools and resources are in place to prepare for unknown system conditions or events that may threaten grid reliability, and works to ensure that the industry is prepared for near-term operating threats or conditions. The SASMS promotes security for critical infrastructure, data exchange, and control system policies within the Western Interconnection.

Disbanded as part of the JGC Committee Categorization Review.
