

Studies Subcommittee Update

Prepared for the RAC
Eespita Prye

**Electric Reliability
& Security for the West**

July 8, 2025

Updates

- Chair Nominee: Eepsita Priye, PSE
- Annual Progress Report
- Addressing Path Rating Task Force (PTF) Recommendations

Annual Progress Report

- Sought approval for the 2025 Annual Progress Report
- Waiver of significant impact for the “Shaffer Substation—LMUD Interconnection” project was denied—two parties raised concerns
- Project sponsor is working with these parties to mitigate concerns
- Will seek approval of updated Annual Progress Report in the next StS meeting

Addressing PTF Recommendations

- Identification of sections in the Path Rating Process that require modification to accommodate non-path-based planning methods has been completed
- This scope of work was reviewed by planners no longer using paths, and provided to the Addressing PTF Recommendations Group
- Recurring meetings between planners not using paths and WECC staff will begin in mid-July
- Proposed language will be reviewed by the Addressing PTF Recommendations Group for approval
