Software Development Process

- Technical kick-off—October 22–24
 - Research, design, and planning activities
 - User personas outlined
 - Critical workflows identified
- Next Steps
 - Detail additional user personas
 - Procure needed technical resources
 - Perform additional foundational work to determine development prioritization
- Development cycle information to be shared with stakeholders once finalized
- Software development timeline is critical, with WECC targeting December 2026 for completion of Phase 1
- [Read](#) the outline for Phase 1 and 2 features

Important: WREGIS will not separate from WECC until **after** Phase 1 software development is complete and functional

Opportunities for Stakeholders Through Development Process

- Participation:
 - Pending input from developer on best practices
 - Testing and design validation
 - Software Launch Forum
- Engagement:
 - Town Halls
 - WREGIS Committee
 - WREGIS SAC
 - engage@wecc.org

Governance and Structure—Next Steps

Over the coming months, as we continue to define how WREGIS might look in the future, we will continue our outreach. We will seek input on things such as:

Board of Directors

- ☐ How many directors?
- ☐ How will the board be composed to represent WREGIS's stakeholders?
- ☐ How will stakeholder directors be selected, and how long will they serve?
- ☐ How will independent directors be selected, and how long will they serve?
- ☐ How will the board interact with the Stakeholder Advisory Committee?

Stakeholder Advisory Committee

- ☐ How big will it be?
- ☐ How will we ensure representation for all stakeholders?
- ☐ How will committee members be selected/elected?
- ☐ Should WREGIS be a member-based organization with membership classes and committee members elected from each class?
- ☐ What is the SAC's role in selecting stakeholder board members?
