Grid *FUNDAMENTALS*

Tuesday, August 19–20
Salt Lake City, Utah

GridEx

Hosted every two years by the E-ISAC, GridEx gives E-ISAC member and partner organizations a forum in which to practice how they would respond to and recover from coordinated cyber and physical security threats and incidents.

- GridEx VIII will be held on November 18-19, 2025
- GridEx VII had more than 15,000 participants
- The E-ISAC releases a public report after every GridEx
- Register here: <https://www.eisac.com/s/register-for-gridex>.

GridEx

New Participation Options

STANDARD SCENARIO

- Default GridEx experience
- Move Zero in the week leading up to the exercise
- 2-day full-scale exercise
- Cyber and physical attack scenario unfolding in real-time
- Extra focus on recovery to end the exercise
- Engage all aspects of organizational response
- Partner with external organizations
- Enhance your exercise with media and social media simulation
- Access to the Exercise E-ISAC Portal

GRIDEX IN A BOX

- 2-day functional exercise
- Abbreviated scenarios customized for smaller planning teams
 - Cyber-focused scenario
 - Physical-focused scenario
- Specialized Exercise Plan designed for staging a real-time exercise on limited resources
- Aligns with the Standard Scenario, enabling external engagement
- Media and social media simulation
- Access to the Exercise E-ISAC Portal

TABLETOP SCENARIO

- 1-day Discussion-based Tabletop Exercise
- Designed to be "Plug and Play"
- Facilitator guide and slide deck, enabling a single person to deliver a challenging exercise
- Engage internal and external partners in a broad discussion
- In-person or remote

GridSecCon 2025

- October 7 – 10, 2025 | MGM Grand, Las Vegas, NV
- Over 650 professionals from industry, government, and regional entities
- Ideal for security, reliability, compliance, and executive roles
- Regular registration open through September 23
- Hands-on trainings and sessions with practical strategies to boost security and reliability

Register here

Reliability & Security Workshop

WECC

**October 14–15, 2025
San Diego, California**

Antitrust Policy

- All WECC meetings are conducted in accordance with the WECC Antitrust Policy and the NERC Antitrust Compliance Guidelines
- All participants must comply with the policy and guidelines
- This meeting is public—confidential or proprietary information should not be discussed in open session

Antitrust Policy

- This webinar is being recorded and will be posted publicly
- By participating, you give your consent for your name, voice, image, and likeness to be included in that recording
- WECC strives to ensure the information presented today is accurate and reflects the views of WECC
- However, all interpretations and positions are subject to change
- If you have any questions, please contact WECC's legal counsel

Participating

- Send questions via chat to WECC Meetings
- Use the “raise hand” feature in Webex

Agenda

- NERC & WECC Happenings
 - Fahad Ansari, Senior Technical Advisor, WECC
- Cold Weather Update
 - Curtis Crews, Senior Technical Advisor, WECC
- NERC and WECC Standards Updates
 - Donovan Crane, Senior Engineer, Standards, WECC
- Inverter-based Resources Initiative Update
 - Abby Fellingner, Senior Registration & Certification Engineer, WECC
- Andrew Williamson, Senior Registration & Certification Engineer, WECC
 - Mark Rogers, Manager, Registration & Certification, WECC
- Updating Information Delivery
 - Angela Shapiro, Manager, Oversight Analysis and Administration, WECC

NERC and WECC Happenings

Fahad Ansari

Sr. Technical Advisor, Oversight Planning

**Electric Reliability
& Security for the West**

NERC and WECC Happenings

- **Recently Effective Standards:**
 - IRO-010-5—Reliability Coordinator Data and information Specification and Collection
 - TOP-003-6.1—Transmission Operator and Balancing Authority Data and Information Specification and Collection.
- **ERO Enterprise Risk Factors and Risk Categories**
- **Event Analysis Shares New Lesson Learned**
 - Loss of Monitoring and Control Due to a Communication Failure Between
 - Control Centers
- **NERC Webinar for Registration Process for Category 2 Generator Owner and Generator Operator IBRs**
- **Level 3 Alert— IBR Performance and Modeling**
 - Reporting due: August 18

Cold Weather Update

Curtis Crews

Senior Technical Advisor

**Electric Reliability
& Security for the West**

NERC and WECC Standards Update

Donovan Crane

Senior Engineer, Standards

**Electric Reliability
& Security for the West**

NERC Standards Happenings

- Order 901 Related Projects Ballot and Comment Period 2
 - Anticipated to post August 8 for 30 days
- 2023-06 CIP-014 Risk Assessment Refinement | Draft 3
 - Ballot Period July 11–21, 2025
- Drafting Team Nominations
 - Project 2023-07 Transmission System Planning Performance Requirements for Extreme Weather (June 18–July 17, 2025)
- Modernization of Standards Processes and Procedures Task Force (MSPPTF)
 - MSPPTF Industry Briefing—Monday, July 21, 12:30–1:30 p.m. Eastern

WECC Standards Happenings

- WECC-0157: PRC-006-5 Automatic Underfrequency Load Shedding, Update to the WECC Regional Variance
 - Drafting team solicitation open through July 18
- WECC-0142: Request to Retire BAL-002-WECC-3, Contingency Reserve
 - Filing with NERC this week
 - Will go out for 45-day NERC comment period (Process related)
- WECC Standards Committee
 - Segments 1, 4, 7, 8, and 9 terms conclude at the close of the 2025 WECC Annual Meeting
 - Segments 3, 7, and 8 are vacant
 - If interested, please fill out a DT nomination form found on the Standards Under Development page of WECC.org and select WECC-000: WECC Standards Committee as the project for which you are nominating

WECC Standards Committee

Guide and oversee the Standards Development Process

- Reliability Standards, Variances, and Criteria
- Commenting
- Balloting
- Filing with NERC and FERC

What does the WECC Standards Committee Do?

Serves 2-year term with no limit on terms

- Five segments renewed every year

WSC prioritizes work and sets the starting date for drafting projects

WSC either directly assigns or solicits drafting team member nominations

- The WSC then approves drafting team members
- May augment, modify, or replace drafting team members as needed

WSC authorizes balloting of drafting project's work

WSC must approve forwarding final documents from drafting projects to the WECC Board for approval

What the WECC Standards Committee DOES NOT Do

- Does NOT
 - Write the Standards
 - Approve the Standards

Involved stakeholders draft and approve the Standards

Getting Involved with the WSC

Current WSC Roster

Segment	Representative	Company
1-Transmission Owners	Ronald Sporseen	Bonneville Power Administration
2-Regional Transmission Organizations (RTOs) and Independent System Operators (ISOs)	Alan Wahlstrom	Southwest Power Pool
3-Load-Serving Entities (LSEs)	Currently Vacant	
4-Transmission Dependent Utilities (TDUs)	Paul Rodriguez	Imperial Irrigation District
5-Electric Generators	Adrian Andreoiu	British Columbia Hydro and Power Authority
6-Electricity Brokers, Aggregators, and Marketers	Tim Kelley	Sacramento Municipal Utility District
7-Large Electricity End Users	Currently Vacant	
8-Small Electricity Users	Currently Vacant	
9-Federal, State, and Provincial Regulatory or other Government Entities	Christopher McLean	California Energy Commission
10- Regional Entities	Steven Rueckert	WECC

- The term of service for Standard Voting Segment (SVS) 3 begins when filled and ends at the close of the 2026 WECC Annual Meeting.
- All other SVSs will begin their two-year term of service at the close of the 2025 WECC Annual Meeting and end at the close of the 2027 WECC Annual Meeting.
- Nominations can be submitted by completing a WECC Drafting Team Nomination form located on the Standards Under Development Page of WECC.org. Please select "WECC-0000: WECC Standards Committee" as the project you are nominating for.

Inverter-based Resources Initiative Updates

Mark Rogers

Manager, Registration & Certification

Abby Fellingner

Senior Registration & Certification Engineer

Andrew Williamson

Senior Registration & Certification Engineer

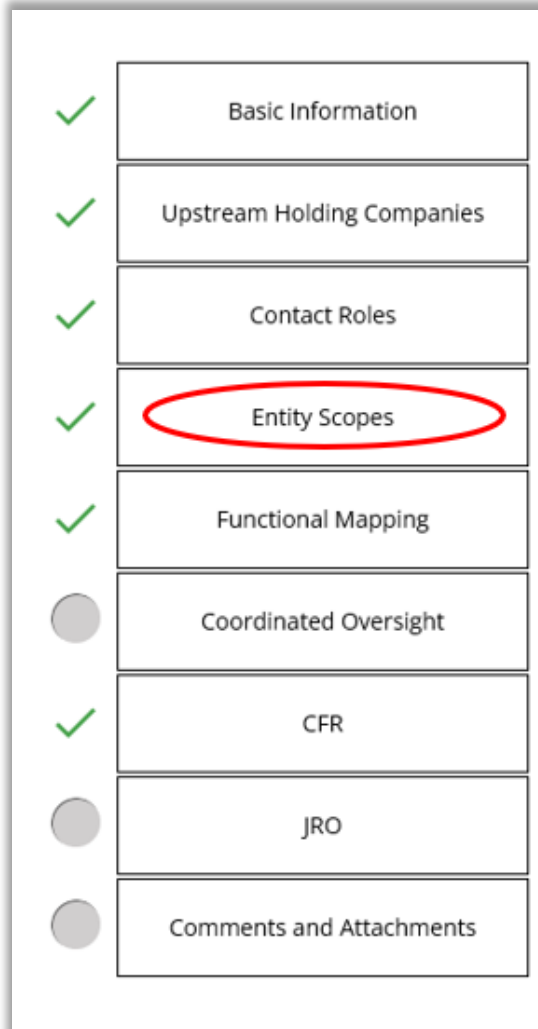

Agenda

Today's discussion

- Summary of the ERO Enterprise Webinar on July 14, 2025: Registration Process for Category 2 GO and GOP IBRs
 - Regional review and assessment
 - ERO Portal/CORES
 - Notification letter from NERC
 - Advanced notification process from August 2025 to May 2026
 - NCR updated and published on 5/15/2026 for Category 2 GO and GOP
- Resources

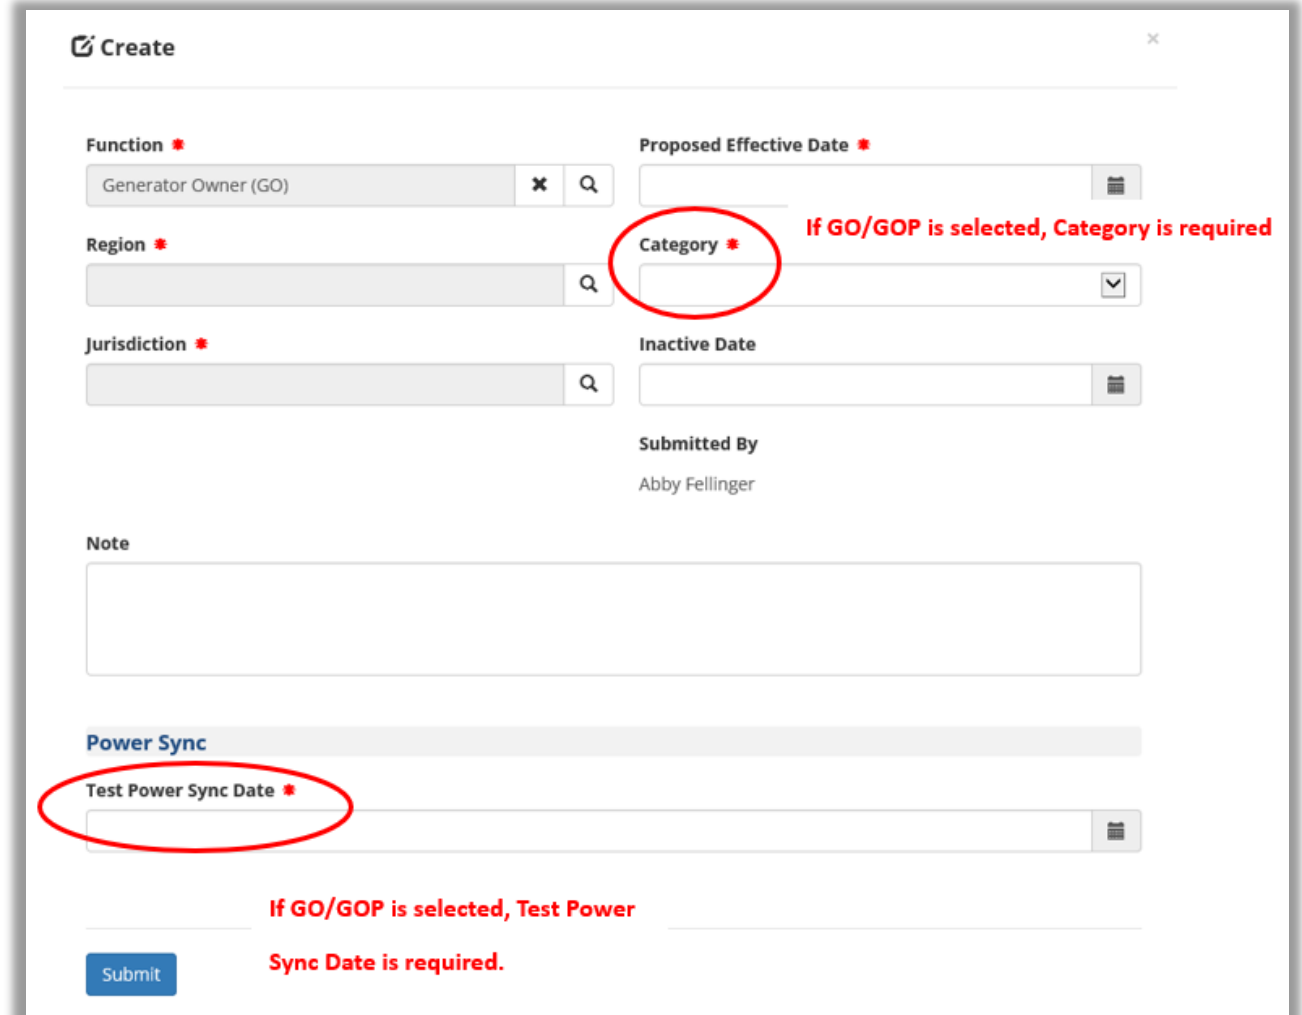

New Functionality in the ERO Portal/CORES

ERO Portal: <https://eroportal.nerc.net>

A vertical navigation menu with eight items. Each item has a green checkmark to its left. The items are: Basic Information, Upstream Holding Companies, Contact Roles, Entity Scopes (highlighted with a red oval), Functional Mapping, Coordinated Oversight, CFR, JRO, and Comments and Attachments.

- ✓ Basic Information
- ✓ Upstream Holding Companies
- ✓ Contact Roles
- ✓ Entity Scopes
- ✓ Functional Mapping
- Coordinated Oversight
- ✓ CFR
- JRO
- Comments and Attachments

A 'Create' form for the ERO Portal. The form includes several fields and a 'Submit' button. The 'Function' field is set to 'Generator Owner (GO)'. The 'Region' field is empty. The 'Jurisdiction' field is empty. The 'Proposed Effective Date' field is empty. The 'Category' field is empty and circled in red. A red note next to it says 'If GO/GOP is selected, Category is required'. The 'Inactive Date' field is empty. The 'Submitted By' field is set to 'Abby Fellingner'. The 'Note' field is empty. The 'Power Sync' section is highlighted in blue. The 'Test Power Sync Date' field is empty and circled in red. A red note at the bottom says 'If GO/GOP is selected, Test Power Sync Date is required.'.

Soft Release Trial

- To ensure that we have a smooth experience for new and existing registered entities on August 1, 2025, the ERO Enterprise has initiated a trial with a few entities.
 - These entities were identified as Category 2 entities and are supporting the release by volunteering to go through the Category 2 registration process.

NERC Compliance Registry (NCR) – Updated View

- Next NCR public posting is scheduled on or before August 1, 2025
 - Existing GO and GOP will be relabeled as GO Category 1 (GO-1) or GOP Category 1 (GOP-1)
 - A mass communication will be sent out about this update
 - No changes to compliance responsibilities
 - Category 2 entities will be included in the NCR Matrix on May 15, 2026

Regional Compliance Enforcement Authority	Jurisdiction	BA	DP	GO Category 1	GO Category 2	GOP Category 1	GOP Category 2	PCPA
MRO	United States			GO-1 (02/06/2015)		GOP-1 (02/06/2015)		
MRO	United States					GOP-1 (07/01/2016)		
MRO	United States		DP (05/31/2007)	GO-1 (05/31/2007)		GOP-1 (05/31/2007)		
MRO	United States							
MRO	United States			GO-1 (05/01/2019)		GOP-1 (05/01/2019)		
MRO	United States					GOP-1 (03/23/2021)		
MRO	United States	BA (05/30/2007)	DP (05/30/2007)	GO-1 (05/30/2007)		GOP-1 (05/30/2007)		
MRO	United States	BA (05/30/2007)	DP (05/30/2007)	GO-1 (05/30/2007)		GOP-1 (05/30/2007)		
MRO	United States			GO-1 (03/02/2021)		GOP-1 (03/02/2021)		
MRO	United States		DP (10/16/2020)					
MRO	United States		DP (05/31/2007)	GO-1 (05/31/2007)		GOP-1 (05/31/2007)		

Next Steps with CORES

- Full release planned for August 1, 2025
 - Entities can begin submitting requests.
 - Regional Entities will begin processing requests.
 - User guides and training materials will be released.
- ERO Enterprise Interim Plan: August 1, 2025 – April 1, 2026
 - Monthly targets managed by Regional Entities.

Quick Reference Guide | Expanding Your Registration

Quick Reference Guide: IBR Registration Initiative

Quick Reference Guide: IBR Registration Initiative

July 2025

As part of its [Inverter-Based Resource Strategy](#), NERC is dedicated to identifying and addressing challenges associated with inverter-based resources (IBR) as the penetration of these resources continues to increase. ERO Enterprise assessments identified a reliability gap associated with the increasing integration of IBRs as part of the grid in which a significant level of bulk power system-connected IBR owners and operators are not yet required to register with NERC or adhere to its Reliability Standards. In response, FERC issued an [order](#) in 2022 directing NERC to identify and register owners and operators of currently unregistered bulk power system-connected IBRs. Working closely with industry and stakeholders, NERC is executing a FERC-approved work plan to achieve the identification and registration directive by 2026.

This visual dashboard allows stakeholders to easily locate key project updates and resource documents and is updated regularly. Resources are also posted on the [Registration page](#) of the NERC website.

IBR Registration Milestones

Phase 1: May 2023–May 2024

- Complete Rules of Procedure revisions and approvals
- Commence Category 2 GO and GOP candidate outreach and education (e.g., through trade organizations)

Phase 2: May 2024–May 2025

- Complete identification of Category 2 GO and GOP candidates
- Continue Category 2 GO and GOP candidate outreach and education (e.g., quarterly updates, webinars, workshops, etc.)

Phase 3: May 2025–May 2026

- Complete registration of Category 2 GO and GOP candidates thereafter subject to applicable NERC Reliability Standards
- Conduct specific Category 2 GO and GOP outreach and education (e.g., quarterly updates, webinars, workshops, etc.)

- #### Key Activities
- **NEW** NERC published the [2025 Second Quarterly Update](#) on July 14.
 - Visit the [ERO Enterprise event tracking graphic](#) to see upcoming events.

Expanding Your Registration

Expanding Your Registration

What to Know About Adding Category 2 IBRs

Why You Need to Update Your Registration

NERC's Rules of Procedure update requires Generator Owners (GO) and Generator Operators (GOP) of non-Bulk Electric System IBRs with aggregate nameplate capacity ≥ 20 MVA connected at a voltage ≥ 60 kV, to be known as Category 2 GO/GOPs, to register with NERC.

Entities previously registered under GO/GOP functions will be automatically redesignated as Category 1 GO/GOP in the system.

Using CORES to Add Category 2 GO/GOP Function

- Log into Centralized Organization Registration ERO System (CORES)
- Submit registration application in CORES
 - ◊ RE approves
 - ◊ NERC approves
 - ◊ Receive confirmation and NERC Compliance Registry (NCR) ID

Tips

- Make sure contacts and functional roles are up to date.
- Review relevant standards and [Reliability Standards Compliance Dates for GO/GOPs](#).
- Communicate proactively with your [RE](#).

Where to Get Help

If your entity and assets are in more than one Region, then your entity is eligible for coordinated oversight. Coordinated oversight is a program that minimizes the compliance burden by coordinating with a single lead Regional Entity.

Your First Step Toward Grid Reliability

NERC at a Glance

The North American Electric Reliability Organization (NERC) is an independent, not-for-profit organization whose **mission** is reduce risks to the reliability and security of the North American bulk power system. Designated by the Federal Energy Regulatory Commission as the Electric Reliability Organization (ERO) in 2006 under Federal Power Act Section 215, NERC develops and enforces Reliability Standards; monitors and assesses grid reliability; and educates, trains, and certifies industry personnel. NERC's **Electricity Information Sharing and Analysis Center** (E-ISAC) reduces cyber and physical security risk through information sharing, curated analysis, and security expertise.

Inside the ERO Enterprise

The ERO Enterprise encompasses NERC and six regional organizations. NERC provides industry-wide perspective and oversight, and the Regional Entities serve the needs of their regional constituents and ensure industry follows NERC Reliability Standards. While NERC and the Regional Entities play different roles, these roles are equally important and complementary, allowing the ERO Enterprise to work as one synchronous machine—effectively, efficiently, and collaboratively.

Who Must Register?

Generator Owners (GO) and Generator Operators (GOP) of non-Bulk Electric System IBRs with aggregate nameplate capacity ≥ 20 MVA connected at a voltage ≥ 60 kV.

How to Register

- Contact your Regional Entity (RE)
 - ◇ RE will provide registration criteria, ERO 101 packet, user guides, onboarding package, and checklist.
 - ◇ RE will request asset information
- RE assists with applicability determination per NERC's registration criteria
- Create portal account
 - ◇ Submit registration application in CORES
 - ◇ RE approves
 - ◇ NERC approves
- Receive confirmation and NERC Compliance Registry (NCR) ID

Category 2 GO/GOPs will not be listed on the NCR before May 15, 2026, when their compliance with standards will be effective.

Updating Information Delivery

Angela Shapiro

Manager, Oversight Analysis and Administration

Why We're Updating Our Information Delivery Process

- We're committed to delivering information to you in a way that is secure, efficient, and accessible.
- This isn't a change in the information we're sharing, just how you receive that information.

What Processes Are Affected?

Compliance Oversight Plan

Compliance Audit/Spot Check

Compliance Oversight Plan (COP)

- WECC issues the IRA and COP Survey to registered entities on a rolling basis.
- Once a registered entity has been scheduled for an IRA and COP, WECC will gather information needed to assess inherent risk and operational performance.
- The results of the risk analysis will continue to be published via COP report in Align.
- WECC will discontinue to share draft COP report outside of Align.
- Feedback forms will continue to be sent post COP completion.
- If there is a change in information or additional information is required to be submitted, please contact WECC staff. As always, do not email confidential or sensitive information.

Compliance Audit and Spot Checks

- WECC sends information about monitoring engagements via Align
- Audit Notice Package (ANP), Requests for Information, and any instructions
- Taking advantage of functionality in the system
 - Important dates and deadlines
 - Bios—hyperlinks in Align (screenshot)
 - Scope revisions (screenshot of “removed from scope”)
- Increasing transparency by posting sample presentations to website

Clickable Biographies in Align Audit Notice Package (ANP)

ME23-01414
