Election Rules

- Members of the committees are elected according to rules outlined in the WC and WREGIS SAC charters.
- Only registered members of the WREGIS SAC may cast ballots.
- For the WC election, voting entities from each class or sub-class may cast one vote for a committee member of the same class or subclass.
- Voting will be done by email.
- Only one delegate per voting entity will have voting rights for that entity. It is the voting entity's responsibility to identify and inform WREGIS staff of its delegate. Dispute resolution is the responsibility of the affiliates involved. If a single delegate is not named, only the first vote cast by an affiliate from that entity will be counted and the others will be discarded.
- Members are elected by a majority of the votes cast for that seat. If no nominee receives the majority of the votes, there will be a runoff election on September 8 between the candidates who received the most votes.
