Program Certificate Exception Request Form
WREGIS
September 2023

Certificate Exception Request Type:

- (●) **Retroactive Certificate Creation:** Creating WREGIS certificates for a period that falls outside the standard certificate creation rules.
- ( ) **Retroactive Eligibility Code Application:** Applying eligibility codes to previously created certificates.
- ( ) **Other:** Requesting an exception to WREGIS certificate creation policy not specified above.

Certificate Exception Request Details:

Program Name: Oregon Community Solar Program

Program Year(s): 2025-2026

Provide a brief explanation of why you are requesting the certificate exception.

The Oregon Community Solar Program Implementation Manual requires the renewable energy credits associated with participant subscriptions be retired on behalf of the participants (Section 3.8). The program requires that Project Managers will enroll and register with WREGIS after the project becomes operational, however, the program has not previously provided clear guidance on a required timeline for registration. These projects did not register with WREGIS within 3 months of becoming operational and therefore have missed the acceptable standard eligible vintage window. Therefore, these projects need retroactive certificate creation so that Project Managers can retire them on behalf of participants that are enrolled in the project as a part of the Oregon Community Solar

WREGIS customer(s): Bonneville Environmental Foundation

WREGIS ORG ID: A69

Generating unit(s): W30915

Fuel type(s): Solar

Vintage(s): W30915 : 9/2025 - 12/2025

Supporting documentation and attachments submitted with this request:
