WREGIS Software Launch Forum and User Testing

February 23, 2026

We are actively seeking stakeholder volunteers interested in being members of the WREGIS Software Launch Forum (SWLF). The goals of the SWLF are to increase the transparency of the development process, build stakeholder confidence and trust, and gain project advocates to help build momentum about the custom platform.

The SWLF will comprise eight members: the SAC chair, one WREGIS Committee member, two state program administrators, two qualified reporting entities, and two generator customers. The SWLF will provide additional visibility into the project progress, milestones, and user interface.

We are seeking applicants from the above stakeholder groups who have extensive experience with the current system. Applicants must have an active WREGIS login, be willing and able to sign a non-disclosure agreement, and be committed to attending monthly meetings through the end of 2026.

In addition, we are looking for individuals interested in participating in phase 1 user testing, which will begin in the second half of 2026. These applicants should also have active WREGIS logins and be regular users of the system.

Information on the Software Launch Forum and the Testing Interest Form are available on the WREGIS website. If you are interested in applying to be a member of the SWLF or being considered for future user testing, please fill out the form and return it to wregisadmin@wecc.org by March 20.
