RE: Arizona Electric Power Cooperative – 2024 Annual Progress Report

Attached is Arizona Electric Power Cooperative's WECC 2024 Annual Progress Report. Filed by AEPCO in accordance with WECC Progress Report Policies and Procedures.

Any new facilities and their planned system operation are in conformance with NERC Standards and WECC System Performance Criteria. If you have any questions regarding this report, please contact Boris Tumarin at (520) 586-5116.

Sincerely,

Boris Tumarin
Manager, Transmission Planning
Arizona Electric Power Cooperative

2024 Annual Progress Report to WECC Arizona Electric Power Cooperative (AEPCO)

PROJECT COMPLETED:

No Transmission Projects with voltage levels above 200 kV were completed.

IN PROGRESS:

All currently performed AEPCO planned transmission projects are below reporting threshold voltage level.

None of the AEPCO current transmission and/or generation projects have any significant impact on the reliability of Western Interconnection.
