RE: 2024 Kestrel Comprehensive Progress Report

In accordance with the WECC Progress Report Policies and Procedures, please find Recurrent Energy's 2024 Comprehensive Progress Report for our project Kestrel Energy Center, LLC. If you have any questions, please contact:

1. Initial Progress Report

Physical Description of Project

The stand-alone battery energy storage project is located on approximately 3 acres in City of Industry, California.

The project will be interconnecting to Southern California Edison Company (SCE) Walnut 220kV Substation located in City of Industry, California. [REDACTED]

[REDACTED]

The project interconnection equipment (i.e. number of batteries, transformers, and inverters) are subject to change as the project progresses in development and final design.

Planned Operating Date

The In-Service Date specified in the Interconnection Agreement is 2/28/2025 with an Initial Synchronization Date of 3/31/2025 and a Commercial Operations Date of 5/31/2025.

Project Status

The project executed its Large Generator Interconnection Agreement (LGIA) with SCE and CAISO in June 2021. The Kestrel project team met with SCE in March 2022 to “kickoff” the design and engineering of the required Interconnection Facilities and Network Upgrades. SCE and the Kestrel project team will meet monthly once the project is further developed and continually communicate the development of overall design, procurement, and the construction schedule in order to meet the project planned operating date.

Contact Information

- Facility Owner Name: Kestrel Energy Center, LLC

2. Models and Data for Transmission Planning Software Programs

Interconnection Customer will provide the models and data that can be used by transmission planning software programs now that the 30% Engineering and Studies are completed.

3. Project Milestone Schedule

Interconnection Milestones listed below, as noted in project's Large Generation Interconnection Agreement.

Milestone	Responsible Party	Due Date
In-Service Date	Interconnection Customer	February 28, 2025
Construction Complete	Interconnection Customer	February 28, 2025
Initial Synchronization Date	Interconnection Customer	March 31, 2025
Trail Operation	Interconnection Customer	March 31, 2025
Commercial Operation Date	Interconnection Customer	May 31, 2025

4. Transmission Studies
