Good morning all,

MEID does not have new generation projects (200 MW or greater) or any new, re-design, permanent removal, upgraded transmission facility over 200 kV, or other changes (e.g., operating procedures) that may significantly alter the operation of the transmission facilities. In addition, there are no planned facilities below these thresholds that may substantially impact the reliability of the Western Interconnection.

Best,

**Marisol Vidauri-Sandoval**
