Subject: PNM 2025 Annual Supplemental Progress Report

In accordance with the WECC Progress Report Policies and Procedures, the following is Public Service Company of New Mexico's ("PNM") 2025 Annual Supplemental Progress Report. This Annual Supplemental Progress report covers projects with an initial or comprehensive progress report submitted prior to 2025 or a waiver of significant impact.

Project Updates:

San Juan 345 kV Station Expansion (2021 Waiver Granted)

The project consisted of expanding the San Juan 345 kV station to accommodate the interconnection of a 200 MW solar and BESS generation facility. The station expansion is called San Juan North 345 kV station. The project was energized May 2024.

Quail Ranch 345 kV Station (2023 Waiver Granted)

This project consisted of a new 345 kV switching station (Quail Ranch) on the existing Rio Puerco-West Mesa 345 kV line in western Albuquerque to accommodate the interconnection of a 300 MW solar and BESS generation facility. The project was energized May 2024.

Hidden Mountain 345 kV Station (2024 Waiver Granted)

This project consists of a new 345 kV station (Hidden Mountain) on the existing Pajarito-Western Spirit 345 kV line in central New Mexico. The new station is in Valencia County New Mexico and is being constructed to provide the transmission capacity required to serve significant additional load in Valencia County. The in-service date is October 2025. This project adds a new switching station on an existing line and will not have a significant impact on the operation of the WECC interconnected system.

PNM does not have any new projects to report this year.

If you have any comments or questions, please contact me at (505) 241-4591.

Sincerely,

Karen Reedy
