Studies Subcommittee Members (STS), Eepsita and Doug,

Transmission Agency of Northern California does not have any new generation (200 MW or greater) that has executed an LGIA or new, redesigned, or permanently removed transmission facilities over 200 kV planned. Additionally, there are no planned facilities or changes (e.g., operating procedures) below these thresholds may significantly affect the reliability of the WECC interconnected electric system.

Sincerely,
Quinten Ziegler

Request for 2025 Annual Progress Reports – Due February 28, 2025

January 2, 2025

RELIABILITY ASSESSMENT COMMITTEE

STUDIES SUBCOMMITTEE

Attached is a request for submission of the 2025 Annual Progress Reports.

As indicated in the attached policies and procedures document, Initial and Comprehensive Progress Reports should be sent to [STS](#), [Doug Tucker](#), and [Eepsita Priye](#) (StS Chair). Annual Supplemental Progress Reports should be submitted to [Doug Tucker](#) and [Eepsita Priye](#) only. Progress reports are due by February 28, 2025.

Thank you,

Doug Tucker

Senior Staff Engineer
