Hello,

CHPD's only active project is the Jumpoff Ridge 230/115 kV station for a large load; this was previously granted a waiver in the annual report process. We have no further updates or new projects to report. Please let me know if you have any further questions.

As a side note, I greatly appreciate WECC's compiling the various report here - [Progress Reports | Western Electricity Coordinating Council](#) – this has been quite useful for keeping track of projects and expectations. I've used it to make a PowerWorld page for the Area 40 Base Case crew to check base cases for such items, so we're putting these materials to use. Thanks for your work.
