Good Morning Doug, Eepsita, and STS Members;

Snohomish County PUD does not have any new generation projects of 200 MW or greater, or any new, redesigned, permanently removed, or upgraded transmission facilities exceeding 200 kV. Additionally, there are no planned facilities or other changes (e.g., operational procedures) below these thresholds that would significantly impact the reliability of the WECC interconnected bulk electric system.

Please let me know if you have any questions.

Thank you

**Tuan Dang, P.E.**
