Hello Doug and Eepsita,

The Transmission Agency of Northern California (TANC) has reviewed the WECC Progress Report Policies and Procedures for the current reporting period.

TANC confirms that it does not have any generation projects or transmission projects that meet the reporting thresholds or would otherwise require notification under the WECC Progress Report requirements. This includes potential modifications (or planned modifications) to the TANC transmission system that would impact the operation of transmission system or existing Operating Procedures, which has not occurred.

Should there be any future changes that result in reportable projects, TANC will notify WECC and submit the required information in accordance with established procedures.

If there is any additional information needed, please let us know.

Best Regards,

Gary
