**Ballot Not Required**

**WECC-0154 VAR-001-5**

**Voltage and Reactive Control (VRC)**

**WECC Regional Variance (RV)**

**No Change – Information Only**

**Ballot Name:** A ballot was not taken for this project as no changes were proposed. An information only filing was forwarded to NERC.

WECC-0154 VAR-001-5, Voltage and Reactive Control, WECC Regional Variance became due for review in January 2024.

On January 16, 2024, after reviewing the entire document during two public meetings, a drafting team of subject matter experts unanimously agreed that no changes should be made to the Standard.<sup>1</sup>

The WECC Standards Committee (WSC) was briefed on the drafting team's finding. Acting on the drafting team's recommendation, the WSC instructed staff to provide NERC with an information-only filing.

Because no changes were proposed, an implementation plan was not needed.

The WSC was briefed on its procedural authority to approve the project with no further due process; WECC Legal concurred.
