<Limited-Disclosure>

Notice of WECC-0157 Ballot Results

On April 6th 2026 the WECC-0157 PRC-006-5 Automatic Underfrequency Load Shedding, Update to the WECC Regional Variance Ballot closed.

The question posed to the Ballot Pool was “Do you approve the changes to the WECC Variance in PRC-006-5 Automatic Underfrequency Load Shedding as proposed by the Drafting Team.”

The quorum and passing votes results were as follows:

	Quorum	Approval% / Result
WECC-0157 Ballot Results	70.1%	100% / Pass

The full [Ballot results document](#) that includes the voting record and SVS voting breakdown can be found on [wecc.org](#) on the [Standards Voting page](#) under the “Review Ballot Results accordion.”

Next steps for the project will be to present these results to the WECC Standards Committee at their next meeting.

Thank you to all those that joined the Ballot Pool, cast your votes, and continually participate in the Standards Development Process at WECC.
